GROUND BREAKING NEW CINEMA TECHNOLOGY

Events are about capturing imaginations, telling stories and creating loyalty. They're about bringing big ideas to life and giving people new perspectives, intentions and motivations. This is your opportunity to really impress your audience. At Showcase, we won't let you down.

We've developed industry-leading technologies that make the cinema experience more immersive and compelling than ever. Creating our purest, brightest picture ever, for crystal-clear definition in both 2D and jaw-dropping 3D.

Completing the XPlus experience, our innovative Dolby Atmos 360°

sound systems create an infinite field of sound around your audience. Giving your delegates a breath-taking, multidimensional listening experience.

We can also seamlessly link our auditoriums and venues through satellite conferencing. Enabling you to invite large numbers of delegates to either one venue or one of the 17 nationwide venues in our network. This will allow your delegates to share ideas, experiences and innovations on a massive, nationwide scale.

The menu you choose for your event can make all the difference and we're here to help you put together the perfect mix of flavours from all over the world.

Our beautiful buffets and elegant canapés add extra impact when you really want to impress.
